

Unveiling True Efficiency

CASE STUDY

CUSTOMER PROFILE

IG Masonry Support Ltd, a leader in the construction industry, specializes in innovative masonry support products. Supplying the construction industry with the most practical and advanced range of stainless steel masonry support products and revolutionary brick slip soffit systems, the company was grappling with challenges in tracking production and managing vast resources before the introduction of **Autodesk Fusion Operations**.

CHALLENGES

Slow and tedious tracking processes

Difficulties in pinpointing bottlenecks

Managing a vast workforce and materials

Friction onboarding bespoke projects

IMPLICATIONS

Financial

Prolonged production downtimes and inefficiencies impacting the bottom line

Operational

Sub-optimal use of resources increases production times

Quality

Errors and non-compliance with project demands, lead to customer dissatisfaction

SOLUTION

Autodesk Fusion Operations, a cloud-based MES software, emerged as the beacon of hope for IG Masonry Support. Key features that sealed the deal included:

- Digitalization of tracking and traceability processes
- Enhanced control mechanisms
- Flexibility to adapt to unique project challenges

RESULTS

With Autodesk Fusion Operations, IG Masonry Support achieved:

- Faster and more reliable tracking processes
- Significant reduction in production bottlenecks
- Tangible time and cost savings
- Enhanced adaptability to bespoke projects

“Fusion Operations has unveiled avenues for tackling challenges we were previously unaware of, saving us significant time and money.”

*James Pastre,
Quality Manager*
